

DUR-WOOL

DW SERIES

DUR-WOOL syndicates uniform thickness and maximum strength. Constructed with exceptional quality, 100% woven wool with a felt finish, **DUR-WOOL** fabric consistently produces a uniform finish.

APPLICATION & BENEFITS

- Recommended for final polishing hard substances such as glass & ceramics with a polishing slurry such as cerium oxide.
- Its knapped surface provides even distribution of polishing particles and is suitable for multiple use.

PHYSICAL CHARACTERISTICS

PHYSICAL PROPERTIES & AVAILABILITY			
MATERIAL	100% WOOL	COLOR	NAVY
Size		Approx. Thickness	Thickness w/ PSA
Pads/Discs	6" - 36"	.058"	.060"
Sheets	54" x 54"		
Yardage	60" Width		
Pressure Sensitive Adhesive	When PSA is specified (pressure-sensitive adhesive), a polyester interface with down side adhesive protected by a removable paper, is applied. The bond to the lapping plate remains firm with various polishing vehicles including water, oil, alcohol, and most commonly used slurries, yet removes cleanly when changed.
