**UNIVERSAL PHOTONICS**

**800.645.7173  
516.935.4000**

Far thinner than ordinary microfiber, Luminex's ultrafine, micro-pocket properties trap residue, leaving the cloth's surface clear for continuous wiping. This "inner-trapping" property is created by the combination of capillary action within the ultrafine microfiber and the pressure difference of the wiping action. Luminex cloths are washable and reusable.

COMPOSITION	100% POLYESTER
DENSITY	70 - 80 GR./M <sup>2</sup>
THICKNESS	0.2 MM
WATER ABSORPTION PROPERTY	250-280 WT %

### Perfect Finish

*Contains no unstable filament. Surfaces are polished  
without any specks of lint left behind.*

### Gentle

*Its super-fine construction is gentle on all surfaces with-  
out being "slippery". Cleans without scratching.*

### Versatile

*Multi-purpose, extraordinary cleaning for oily films,  
dust, fingerprints and other residue on a wide  
variety of materials.*

### Washable

*Not treated with silicone or chemicals. May be washed  
repeatedly and will still retain all cleaning properties.*
